- *Early season growth*
- *After each cutting*

Livestock/Feed Info

Growers Report

The return on investment has been obvious to us just with the production and quality of the hay. We've saved over \$80/acre using EnSoil Algae™ on hay production instead of synthetic inputs."

-- Reminisce Angus Ranch | MT

IMPROVE SOIL & FEED VALUES

BOOST YIELD

ENHANCE STRESS ADAPTATION

INCREASE RETURN ON INVESTMENT

"We ended up with 280 round bales on a target of 150. We did not use any fertilizer again this year. Additionally, one of our hay clients asked to buy all of our hay. His horses have been devouring it.
